Summary

Highly accomplished Full Stack Developer with a proven track record in end-to-end software product development. Expertise in MERN Stack, RESTful API design, efficient code writing, and responsive user interface creation. Adept at database design for optimal performance. Continuously updated with the latest technologies, driving innovation and informed decision-making. Valuable asset with a strong focus on meeting project goals.

Technical Skills

- Python
- ReactJS/NextJS
- Tailwind/MUI/Antd
- MSSQL/MySQL
- NodeJS/ExpressJS
- Python/FastApi
- NoSql/MongoDB

Experience

Dubizzle Labs

Associate Software Engineer (Frontend - React.js) - Full Time

March 2025 - Present

- **Participated** in requirements analysis, working closely with stakeholders to understand project goals and deliverables.
- **Contributing** to the development and maintenance of internal CRM platforms for flagship real estate and reselling brands, including **Zameen.com**, **Bayut**, **Dubizzle**, and **OLX**, optimizing workflows for sales and support teams.
- **Developing** user interfaces using **React.js**, ensuring seamless user experience across multiple business units.
- **Leveraging Redux Toolkit** for efficient state management across complex data-driven views and user interactions.
- **Designing** modular, reusable components and interfaces using **Ant Design (Antd)**, ensuring consistency and scalability across applications.
- **Collaborating** with cross-functional teams including backend developers, product managers, and QA engineers to deliver high-quality features within sprint timelines.
- **Participating** in daily stand-ups, sprint planning, and code reviews to maintain code quality and agile delivery standards.
- **Refactoring** legacy codebases to improve performance, maintainability, and alignment with modern frontend best practices.

NHZ Global

Full Stack Developer (MERN) - Part Time

September 2023 - March 2025

- **Participated** in requirements analysis, working closely with stakeholders to understand project goals and deliverables.
- **Collaborated** with internal teams to produce robust software design and architecture, ensuring scalability and maintainability.
- **Designed & Developed** web applications using React.js for the frontend using UI Frame Works like **shadcn/ui**, **Antd**, **MUI** and **TailwindCSS** crafting responsive and user-friendly interfaces to enhance user experience.
- **Built** backend services using NodeJs, focusing on efficient data processing and robust API development.
- **Implemented** RESTful APIs to facilitate seamless communication between frontend and backend systems.

- **Integrated** third-party services and APIs, such as payment gateways (Stripe) and data analytics tools, to extend application functionality.

ZYSoftec | Remote

MERN Stack Developer - Internship

June 2023 – September 2023

- **Collaborated** with internal teams to produce robust software design and architecture, ensuring scalability and maintainability.
- **Developed** web applications using React.js for the frontend, crafting responsive and user-friendly interfaces to enhance user experience.
- **Built** backend services using FastAPI, focusing on efficient data processing and robust API development.
- **Implemented** RESTful APIs to facilitate seamless communication between frontend and backend systems.
- **Integrated** third-party services and APIs, such as payment gateways (Stripe) and data analytics tools, to extend application functionality.

Personal Projects

Matrimonial Site

Built a full-featured matrimonial platform with real-time chat (WebSocket), secure payments (Stripe), and a custom profile matching algorithm.

- **Analyzed requirements:** Conducted detailed analysis to gather and understand the requirements of the matrimonial platform.
- **Collaborated with internal teams:** Worked closely with UX/UI designers and product managers to design an intuitive interface and robust architecture.
- **Developed scalable code:** Implemented scalable and maintainable code for the entire platform, ensuring high performance and responsiveness.
- **Implemented chat feature:** Developed a real-time chat feature using WebSocket for seamless communication between users.
- **Integrated Stripe:** Integrated Stripe for secure and efficient payment processing.
- **Designed matching algorithm:** Created a custom matching algorithm to recommend compatible profiles to users.

Education

COMSATS University Islamabad | Lahore, Pakistan

Bachelors of Computer Science

January 2021 - January 2025

Additional Information

- **Cultural Experiences:** Visited over 20 different tourist places and experienced a diverse culture.
- **Social Impact:** SkillNest – Core Team Member(2021-2023)
- **Personal Interests:** Food, Traveling, Cooking, Cricket
