Address: Hyderabad, Sindh, Pakistan

---

**Career Objective:** I am a passionate Computer Science graduate specializing in Frontend Development, with the aim to securing a responsible career opportunity to utilize my technical skills in crafting user-friendly and visually engaging web applications. I thrive in collaborative environments, enjoy creatively solving complex problems, and committed to continuous learning and making meaningful contributions.

---

## Experience:

### Young Dev Intern

March 2025-April 2025

- Worked on real-world web projects as part of a collaborative frontend team.
- Built and maintained responsive user interfaces using React.js, implementing reusable components and managing state effectively.
- Assisted in debugging and optimizing React code for better performance and maintainability.

### Indus technetronic NIC Hyderabad

June 2023-August 2023

- Intern in Frontend Development.
  - Created responsive, user-friendly web interfaces using HTML, CSS and JavaScript.
  - Enhanced my skills in Frontend Development through hands-on experience, preparing me for future challenges in the field.
- 

## Education:

- **Quaid-e-Awam University of Engineering Science & Technology Nawabshah.**
  - Bachelor of Science in Computer Science.(BSCS)
  - CGPA: 3.69
- 

## Projects:

### Project#01

#### Quaid-e-Awam University of Engineering Science & Technology Nawabshah.

2023

- E-commerce Website for visually impaired people .we have developed an accessible e-commerce website using HTML5, CSS3, JavaScript, React.js and Bootstrap specifically designed to meet the needs of visually impaired users ,the back end, built with Node.js and Express, integrates MongoDB and features voice synthesis and recognition, creating a more accessible and empowering online shopping experience.

### Project#02

#### National And Vocational Technical Training Commission:

2024

- E-commerce website for women fashion.This project encompasses the design and development of an E-commerce website dedicated to women's fashion. built entirely with HTML, CSS, and JavaScript, the site is designed to ensure a seamless shopping experience.

### Project#03

#### YoungDev Intern

2025

#### React Frontend Application:

- I built a responsive frontend web application using React and Tailwind CSS, designed and implemented modular, reusable components for clean and maintainable code ,integrated real-time APIs for dynamic data rendering ,and including a random quote feature ,plus developed an interactive calendar to enhance date-based user interactivity and added live search functionality for real-time filtering and improved UX.

Certificates of Appreciation and Trainings:

- Full Stack Development Course by NAVTTC @Aptech Center Hyderabad
  - Introduction to Frontend Development by Meta
  - Frontend Development Quiz Competition by Decentral Developers
  - Mastering React.js webinar by NextGenLearners
  - Success Mindset Certificate
- March 2024 - May 2024

December 2023 - January 2024

February 2025

December 2024

September 2024
