## SUMMARY

As a Computer Science graduate with over 2.5 years of extensive experience in Flutter development, I specialize in crafting high-quality, pixel-perfect, cross-platform mobile applications with a keen emphasis on exceptional UI/UX design and robust performance optimization. Having successfully delivered 30+ diverse projects, I consistently ensure seamless user experiences and innovative, tailored solutions that meet and exceed client expectations.

My expertise encompasses full-cycle app development, advanced custom widget creation, and proficiency with prototyping tools such as Figma, empowering me to develop scalable, efficient, and visually compelling applications. My technical skillset includes the knowledge of Dart, Java, MS SQL, API integrations, Supabase, Firebase and comprehensive mobile application programming, enabling me to build maintainable and high-performing solutions.

Driven by innovation and a passion for technology, I actively stay ahead of emerging Flutter trends and best practices to continuously enhance mobile user experiences. I am excited to leverage my extensive experience to contribute meaningfully to impactful projects and further advance my career in software engineering.

## EDUCATION

2023

Rawalpindi, Pakistan

Bachelor of Science in Computer Science

[University of Pir Mehr Ali Shah Arid Agriculture](#)

2017

Islamabad, Pakistan

ICS

[Punjab Group of Colleges , Blue Area](#)

## Experience

**Aug 2024 - Aug 2025**

Rawalpindi, Pakistan

Descua Software

[Flutter Developer](#)

**Jan 2023 - Present**

Rawalpindi, Pakistan

FreeLancing

[Flutter Developer](#)

**May 2023 - Aug 2023**

Rawalpindi, Pakistan

EcodeCamp

[Flutter InternShip](#)

**May 2022 - Jan 2023**

# Certifications

## Loveable Ai Source

July 2025

Udemy

Online

Earned 'Lovable AI' Certification (Udemy), applying AI-driven personalization techniques to create more engaging, human-centered experiences

## Agile Project Management

June-2025

Hp-Life

Online

Earned certification in Agile Project Management, gaining expertise in Agile principles, Scrum framework, and iterative project delivery. Acquired practical skills in sprint planning, backlog management, and team collaboration to deliver value-driven results.

## Effective Leadership

August-2025

Hp-Life

Online

Earned certification in Effective Leadership, focusing on leadership styles, team motivation, decision-making, and conflict resolution. Gained skills in guiding teams, building trust, and driving organizational success through strong, people-centered leadership.

## Project Charters

August-2024

Coursera

Online

Earned certification in creating and managing Project Charters using Google Docs. Gained expertise in structuring key project elements such as Problem and Goal Statements, Scope, Key Metrics, and Stakeholder roles. Developed practical skills in leveraging Google Docs for real-time collaboration, documentation, and project alignment.

Cert-Nr:UC-09120100-hello-009-Gulf-1301w160730  
Certificate url: https://www.udemy.com/courses/09120100-hello-009-Gulf-1301w160730/  
Reference Number: 0004

CERTIFICATE OF COMPLETION

## Building & Debugging Lovable Apps for Full-Stack Developers

Instructors: Valentin Despa

## Certificate of Completion

Suleiman Hassan

has successfully completed the HP LIFE online course

Agile Project Management

By completing this course, the above-named student has learned new skills including how to define minimum viable product and understand the differences between iterative and incremental product development, analyze the benefits and limitations of Agile project management tools like Scrum and Kanban, and apply agile ways of working to improve project management and product development across teams.

Presented 8/18/2025

Stephanie Bormann  
Deputy Director, HP Foundation

## Certificate of Completion

Suleiman Hassan

has successfully completed the HP LIFE online course

Effective Leadership

By completing this course, the above-named student has learned about effective leadership and its importance, how to successfully leverage different leadership strategies, and why ethics plays a role in effective leadership.

Presented 8/18/2025

Stephanie Bormann  
Deputy Director, HP Foundation

Aug 18, 2021

Suleiman Hassan

has successfully completed

Create a Project Charter with Google Docs

an online non-credit project authorized by Coursera Project Network and offered through Coursera

# FLUTTER PROJECTS

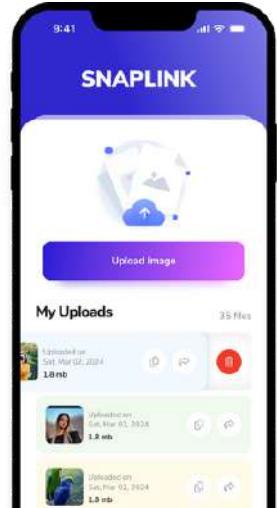

## TaskFlow

**TaskFlow makes managing your to-dos a breeze, ensuring you stay productive and focused on what matters most.**

- CRUD Operations: Implemented CRUD (Create, Read, Update, Delete) operations for managing tasks, ensuring data integrity and seamless interaction with task data.
- Smooth Task Handling: Created a seamless experience for users to add, update, and delete tasks effortlessly.
- Building Blocks with OOP: Structured code using object-oriented programming, making it easier to add new features and tweak existing ones without causing chaos.

## Snap Link

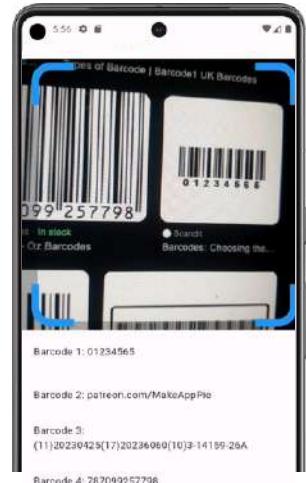

**Snap Link streamlines photo sharing, empowering users to effortlessly share memories and moments with friends and family, anytime, anywhere**

- Snap Link: A versatile photo-sharing app allowing users to seamlessly sign up, sign in, and reset passwords through a user-friendly interface.
- Utilizes Supbase for secure storage of photos from both gallery and camera, enabling convenient access and organization.
- Generates unique HTTP links for each uploaded photo, facilitating easy sharing across various platforms and apps with built-in sharing options.
- Incorporates a password reset module with randomly generated passwords for enhanced security and user convenience.
- Provides users with the ability to view shared photos and effortlessly reshare links, promoting seamless collaboration and communication.

## Scan Master

**Scan Master Flutter app featuring live camera integration for real-time barcode and QR code scanning**

## Expense App

**Expense App: Seamlessly track daily spending and manage finances with secure authentication and Firestore integration.**

- User Authentication: Implemented secure sign-up, sign-in, and forgot password functionalities for seamless user access.
- Firestore Integration: Leveraged Firestore database for efficient storage and retrieval of expense data.
- CRUD Operations: Utilized CRUD operations for managing user expenses, enabling easy addition, retrieval, update, and deletion of expense records.
- Expense Logging: Users can effortlessly log their daily expenses within the app, ensuring accurate tracking and management of personal finances.
- Data Persistence: Implemented robust data persistence mechanisms to ensure the reliability and consistency of stored expense data.

## VPN

**VPN is a fast, secure, and user-friendly app that provides one-tap access to unlimited and private internet through global VPN servers—no registration or subscription required.**

- Secure Connection: Encrypts your internet traffic to keep your data safe from hackers and surveillance.
- Global Servers: Access VPN servers from multiple countries for better speed and content access.
- One-Tap Connect: Simple and intuitive UI lets users connect to the VPN instantly.
- Built using the reliable and open-source OpenVPN protocol for best-in-class security.
- Lightweight & Fast: Optimized Flutter performance with minimal resource usage.
- 100% Free: No sign-up, no bandwidth limits, and no hidden charges.

## ANDROID PROJECT (FYP)

### Alert Management ( FYP )

**Alert Management System in Android Studio using Java, incorporating MS SQL C# and Web API**

- Developed an Alert Management System in Android Studio (Java) with MS SQL, C#, and Web API integration for secure communication.
- Implemented user authentication and role-based access control, enabling admins to manage alerts and groups while restricting teacher/student access.
- Built features for task and group management (add, update, delete tasks; create/manage groups by course, ID, and section).
- Applied object-oriented programming for structured, scalable code with a focus on usability, security, and error handling.
