OBJECTIVE

Aspiring software engineer with strong fundamentals in computer science, networking, and security. Looking to contribute to systems or application-level development, emphasizing secure and scalable software solutions.

EDUCATION

DVSIT Meerut	2025
<i>B.Tech in Computer Science and Engineering (First Division)</i>	
JMIC, Meerut	2020
<i>Intermediate (UP Board) (First Division)</i>	
JMIC, Meerut	2018
<i>High School (UP Board) (First Division)</i>	

TECHNICAL SKILLS

- **Testing Skills:** Manual Testing, Automation Testing, Regression Testing, Functional & Non-functional Testing, Test Case Design & Execution, Defect Tracking, SDLC & STLC
- **Automation Tools:** Postman
- **Languages:** Java, JavaScript.
- **Web / Cloud:** HTML, CSS, React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs, DSA, SDLC, AWS, EC2, S3.
- **Cybersecurity:** OWASP Top 10, Burp Suite, Linux, Security Analysis
- **Tools:** Git, VS Code, Postman, Linux CLI, Figma, MS Office
- **System & OS:** Operating system fundamentals, kernel understanding, debugging tools

PROJECTS

- **Estate booking web application — Full-Stack Real Estate Platform:** Secure platform for property listing with real-time chat (Socket.io), JWT authentication, and role-based access. Integrated MongoDB, Express.js, and React for responsive design.

CERTIFICATIONS

- IBM Cybersecurity Analyst (Coursera)
- Google IT Support Fundamentals
- Intro to HTML, CSS, and JavaScript
- Introduction to Containers with Docker, Kubernetes OpenShift – IBM
- Introduction to Cloud Computing – IBM

HIGHLIGHTS

- Proficient in tools such as Postman and Burp Suite
- Passionate about system-level programming, OS internals, and debugging techniques
- Strong cloud computing deployment skills
- Familiar with both front-end UX/UI and backend optimization
- Keen interest in Operating Systems, Web Applications, and Pen Testing
- Proven teamwork, clear documentation, and consistent learning attitude
- Solved 100+ programming DSA questions on GeeksforGeeks
