- ➤ **Databases:** Firebase, MongoDB,Postgres,SQL,Prisma
- ➤ **State Management:** Redux, React Query, Zustand.
- ➤ **UI/UX:** Material-UI, Ant Design, Tailwind CSS

PROFESSIONAL EXPERIENCE

Frontend Developer - Xomacs:

2023 - 2024

- Designed and implemented scalable APIs and Web Socket integrations to support real-time communication and AI-driven workflows.
- Optimized frontend and backend performance using React, Node.js, and PostgreSQL, ensuring seamless user experience and high system reliability.

Frontend Developer - Sidespin

2024 - 2025

- Developed a feature-rich Admin Dashboard, streamlining processes and improving operational efficiency.
- Built and optimized a user-friendly, visually appealing website to enhance customer engagement and experience.

EDUCATION & CERTIFICATIONS

1. **Bachelor of Mechanical Engineering** - *MUET University Jamshoro (completed in, 2023)*
2. **MERN Stack Engineering Certification** - *SMIT (2022)*

NOTABLE PROJECTS

Smooth AI

http://new-smoothai.vercel.app/

- ➜ Developed a SaaS platform enabling users to purchase and integrate human avatars into their websites.
- ➜ Designed and implemented scalable architecture to support seamless user onboarding and digital asset integration.

Talently AI

https://interview.talently.ai/

➜ Built an AI-powered interview platform that enables organizations to conduct automated and intelligent

candidate assessments.

➜ Implemented scalable features to streamline the hiring process and improve efficiency for recruiters.

Solix

https://solix.vercel.app/

➜ Developed an international currency exchange application using React and Tailwind CSS, providing users with a clean and responsive interface.

➜ Integrated real-time exchange rate APIs to ensure accurate and up-to-date currency conversions.

➜ Focused on a scalable, user-friendly design to enhance accessibility and seamless user experience across devices.
