Experience

Fullstack Developer (Freelance), PsycheMaster – Remote   June 2025 – August 2025

- Built and deployed PsycheMaster, a psychology counseling platform using Next.js, TypeScript, MongoDB, and Tailwind CSS, serving 200+ active users within the first 2 months.
- Optimized SEO and server-side rendering, improving organic traffic by 35 percent and reducing page load time by 40 percent.
- Engineered secure authentication and booking workflows, enabling 50+ successful counseling sessions with zero reported downtime.

Frontend Web Developer, Brand Impetus – Kolkata   Sept 2024 – Dec 2024

- Developed and optimized 20+ responsive web pages with Next.js, React.js, and Tailwind CSS, boosting mobile performance scores by 25 percent .(Lighthouse audit).
- Integrated RESTful APIs to deliver dynamic content, cutting manual data updates by 60 percent.
- Collaborated with designersto accelerate design-to-development cycle by 20 percent.

Education

Netaji Subhash Engineering College – Kolkata, India   2021 – 2025
- B.Tech – Computer Science and Business Systems

Al-Momin International School – Gaya, India   2018 – 2020
- Higher Secondary (Science)

Projects

Autodeck ⧉   ⏻ GitHub

- Created an AI-powered presentation and document generator using the MERN stack, integrating Google **Gemini** API for prompt-based PPT/PDF creation.
- Implemented **JWT authentication** and secure role-based access, enabling personalized content generation and user session management.
- Integrated **PPTX and PDF generation** libraries, automating design exports and achieving a 70 percent reduction in manual formatting time.

BlogSphere ⧉   ⏻ GitHub
- Led the development of BlogSphere, a MERN stack app fostering an interactive blogging community.
- Integrated **Google OAuth** and **JWT** for seamless user authentication and authorization.
- Designed and implemented an **Admin Dashboard** to manage blogs, view user activity, and moderate feedback.
- Used **Tailwind CSS** for a responsive, modern UI and **Express.js** for RESTful backend services.

VFeed - Social ⧉   ⏻ GitHub
- Developed **VFeed-Social**, a full-stack social media app enabling 1000+ concurrent users to post text and image content, comment, like, and follow — achieving 95 percent real-time interaction accuracy via **WebSockets**.
- Integrated real-time notifications for likes, comments, and follows using WebSocket, improving user engagement and retention by 40 percent.
- Optimized **MongoDB queries** and API response times, reducing data retrieval latency by 30 percent.

Skills

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, ShadCn, Tailwind CSS

Backend: Node.js, Express.js, Prisma, Mongoose

Database: PostgreSQL, MongoDB, Firebase

Dev Tools: Docker, Git, GitHub, Postman, Vercel
